- Mentimeter Poll Results (see next page)

# Do you support the proposed revisions for this permit year?

## What other revisions should BCDOT consider for future permits?

Unlimited scoots

Proper scooter parking

Lock-to requirements (only if the city commits to installing a bike rack on every city block) Higher bike minimums Direct subsidy of program with city funds 311 incorporation

Bike docks

A docked bikeshare program that is subsidized

Ability to access bikes without app- in nyc can access bikes from dock with just a credit card

A real bike share program.

if we only have one operator to just let them put as many scooters out as they want, with some minimal provisioning requirement
