

# TAKE THE SURVEY!

As a result of a request from the Charles Village Civic Association, the Baltimore City Department of Transportation (BCDOT) agreed to create a design for a green space on 26<sup>TH</sup> Street at the location of the 2018 embankment collapse.

A permanent road closure on 26<sup>TH</sup> Street between Guilford Avenue and Hunter Street will convert the space into the 26<sup>TH</sup> Street Green, an open-area plaza for community members to gather and relax. Improvements of this section of roadway—closed since the collapse—are related to restoration efforts from the City and the CSX Railroad.

Project planners and community representatives identified two concepts, shown below, following previous community input. **Your feedback will help the design team refine the concepts.** Work would begin later this spring and is anticipated to take about two months to complete.

This survey replaces the public meeting originally scheduled for March 19, 2020, which the BCDOT canceled as a result of COVID-19, to protect the health and safety of staff and community members. Please complete the survey online or via phone and return your responses by **Monday, April 27, 2020.**
